**DETAILED ACTION**

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Specification***

2. The abstract of the disclosure is objected to because it should be in narrative form and generally limited to a single paragraph on *a separate sheet* within the range of 50 to 150 words. Correction is required. See MPEP § 608.01(b).

***Claim Objections***

3. Claims 5, 17 and 20 are objected to because of the following informalities. Appropriate correction is required.

In claim 5, line 2, it appears that the word -- at -- should be inserted after the word "circuit".

In claim 17, line 2, it appears that the word "allowing" should be deleted.

In claim 20, line 1, it appears that the claim should be depended on claim 16 and not claim 15 to provide proper antecedent basis and consistency for the preamble "The inspection system".

***Allowable Subject Matter***

4. Claims 1-20 are allowable over the prior art of record.

**Conclusion**

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The references cited are related to in-situ measurement in filled tanks.

6. This application is in condition for allowance except for the following formal matters as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
